Zebra (Motorola) Compatibility Test

Is your existing Motorola or Zebra Android device compatible with Stocktakes Online?

Make sure your device is connected to a wireless network.

On your Android mobile computer, simply open a web browser.

Make sure the line is blank and that the cursor is in the search bar - waiting for you to type or scan the web address in the barcode below.

If you have a 1D barcode (single red laser line) scan this barcode:

app.stocktakesonline.com/?p=sto

If you have a 2D area imager barcode reader, scan this barcode:

app.stocktakesonline.com/?p=sto

If it works, you will see this:

Something else??
